ATHERTON RESIDENTS IN WATER SUIT

A complaint was filed in the office of the county clerk of this county last Monday signed by a large umber of the residents of Atherton, protesting against the excessive use of water by other residents of the town who have their land leased to Japanese who raise tomatoes and strawberries. The complaint is signed by the following well-known residents of Atherton: M. A. Harris and Nellie C. Harris, his wife; E. S. Heller and Clara H. Heller, Luis Stern and Rosalie M. Stern, E. W. Westphal and Eva H. Westphal, Irene M. Roos and Edith M. Braunsten and names Joseph E Shearer, William K. White and George G. Giannini as defendants in the suit. The complaint then goes on to state that for years the plaintiffs have depended upon wells supplied by an underground stream of bed of gravel, and that the wells are now going dry as a result of the defendants pumping such great quantities of water from the source of supply.

The filers of the complaint first obtained the services of one of the most eminent water engineers in the United States, a man who was sent to the Argonne forest months before the troops were sent there, in order to find water where others said it would be impossible. This engineer conducted a thorough investigation of the matter and his findings were made the basis of the complaint. It was found that the pump on Shearer's property was pulling more water out of the ground in five months than the entire town of Redwood City used in a year. According to the complaint Shearer is using 1,700,000 gallons of water a year and Gianini 170,000 gallons a month.

The plaintiffs are represented by Attorneys Walter Linforth, Ross & Ross, and Heller, White, Ehrman & McAuliffe.

Rancher Accused In Murder Plot

What is reported to be a plot to kill Supervisor Thompson and Carl Coburn, both of Pescadero, was unearthed last week when J. Satera who had previously worked on the ranch of Jose Amaral at Pescadero, reported to the district attorney that he had been paid $200 on account for the murder of the two coastside men. The story as told by Santena was that Amaral had summoned Dr. Thompson four years ago to attend his wife and children who died of influenza while under the doctor's care. Amaral had become morbid following his bereavement and blamed the physician for the death of his family. Coburn was also included in the blame, but for no reason so far known, as he had apparently nothing to do with the case. Later Amaral had paid Satera and another man employed on his ranch $200 on account to murder Thompson and Coburn, promising them $2,000 when they should have completed their task. Satera left with the $200 and when he failed to murder Thompson, Amaral wrote demanding that he return the $200. Armed with this letter, Satera went to Coburn and told him the whole story. Coburn immediately brought him to Redwood City where the matter was laid before District Atorney Swart.

LA HONDA TO "FEAST" TONIGHT

"When do we eat?" That classic cry will echo through the big woods at La Honda this Saturday evening when the folk from hill and dale gather at the La Honda Hotel (Sears) for their first community supper. The "big eats" has been arranged by a capable committee of ladies under the leadership and guidance of Mrs. Ida J. Sears, mine host at the Hotel La Honda. The feast will follow the regular monthly meeting of the La Honda Canyon Promotion Association.

A number of matters of interest to the section will be brought up for discussion, chief of which will be the consideration of the report of the light and power committee. It is expected that the revised estimate of cost of construction of the power line extension will be ready for the consideration of the association.

All residents as well as non-resident property owners are requested and urged to be present. There will be no charge for the banquet but those who feel so inclined may bring a cake, salad or other delicacy of the season. Personal invitations can not be extended to all who should attend so if you do not receive a direct invitation, come anyway.

Custard pie ear guards, dyspepsia tablets and other necessary appurtenances of a royal feast will be on hand in sufficient quantities to properly equip all participants. Soup silencers will not be needed as the committe could not secure enough pans of large enough capacity to serve as soup plates, but they did secure a dozen of the finest chickens and they are going to be cooked to perfection by a couple of our most capable lady cooks. Thanksgiving Day festivities are only a bit of training for the big event. Any mistakes our cooks make in preparing the family turk will be avoided in preparing the viands for the big Saturday meet. Likewise eating the royal Thursday bird will be just a bit of training for the boys who are to tackle the many goodies that the La Honda Canyon Association is going to offer its guests tonight.

FIFTY YEARS MAKES MANY CHANGES

Returning to Redwood City after fifty years brought many surprises to C. A. Beker of South Dakota, who visited last Wednesday night at the meeting of Bay View Lodge I. O. O. F.. It was just fifty years since the visitor had been in Redwood City, and he spoke interestingly of the changes which had taken place here in that time. On his last visit here, said Baker, Redwood City consisted manily of a hotel, a livery stable, blacksmith shop, a shingle mill, and a number of saloons. A little fleet of ships used to anchor here and carry passengers to San Francisco. It sometimes takes an outsider to show us our accomplishments.

To Investigate Housing Conditions

The Portland Cement Company, which is at present erecting a $1,000,000 plant here is now attacking the housing situation. The matter of housing the employees of the company has been brought to the attention of the Redwood City Chamber of Commerce by officials of the company, who state that immediately upon the completion of the plant there will be needed at least 50 houses for employees with families. The single employees and the well-paid skilled mechanic, the officials state, are not offering the difficulties that the married man with a family is. The former can always find lodging, but the finding of moderately priced houses for the unskilled employees is going to be a problem.

In order to relieve the situation, in some degree at least, the officials of the Chamber of Commerce are planning to finance the erection of a number of small homes for the use of the cement workers.

That the improvement of the Lomita Park is not going to go unprotested was shown last Monday when about twenty residents of that place appeared before a special meeting of the board of supervisors for the purpose of protesting. SAN MATEO PIONEER ANSWERS SUMMONS

John T. Jennings one of the best known of the pioneer business men of San Mateo, passed away at the Mills Memorial hospital Wednesday morning. Mr. Jennings was a native of Farmington, Maine, and was 78 years of age. He is survived by his widow, three sons and a daughter. He was the uncle of City Clerk W. A. Price of this city.

Mr. Jennings retired from business several years ago and was connected with a number of Redwood City men in the Turlock Garden Farms project and had of late years spent much of his time in Turlock.

He was one of the stalwart Republicans of San Mateo county and took a great interest in the political affairs of this section.

Georgia Electrician Arrested Here

Grover B. Jones of Macon, Georgia, alledged bail jumper and wanted in Georgia for the theft of an automobile, was arrested last Sunday on the Hetch Hetchy works here where he was working as an expert electrician. Jones was located by the Georgia authorities through a letter, written by him to a friend in Georgia, and intercepted by the police.

The southern officials telegraphed to Sheriff Lampkin to arrest the man and he was accordingly brought to the jail here, where he is now awaiting officers from the southern state who are now on their way out here to take him back.

TRAFFIC COPS AGAIN WITHOUT THEIR PAY

The second installment of bad news for San Mateo county traffic officers was received this week in advices from Sacramento, where provisions for the appointment of traffic officers under the new Breed law, were declared unconstitutional as well as appropriations for the payment of the men, in a decision by the Third District Court of Appeals.

Approximately 95 men throughout the state are affected, including the five officers of San Mateo county.

The decision was rendered in the case of Thomas Ryan, chief of the Sacramento county squad who applied for a writ of mandamus to compel the payment of his salary by State Comptroller Ray L. Riley. The writ was denied.

The court held invalid the whole of section 30 of the law, which provides for appointment of county traffic patrolmen by Will H. Marsh, superintendent of the State Motor Vehicle Department, on contracts with members of the various county boards of supervisors.

The decision upholds the contention of State Contrailer Ray L. Riley, who has refused to pay salaries of traffic officers on the ground that the law prescribes an illegal delegation of legislative power to the county supervisors in allowing them to fix these salaries.

PETITON FILED FOR DISSOLUTION OF CHAMBERLAIN COMPANY OF REDWOOD CITY

GROWTH PREDICTED FOR REDWOOD CITY

That the completion of the $1,000,000 cement plant here will be only the beginning of an unprecedented development along industrial lines is indicated by the iterest being taken in the Redwood City water front by other manufacturing concerns. The tide land east of town has become a Mecca for all lines of investigation. Within the last two weeks it is said that at least six capitalists, representing four lines of manufacture have been investigating the possibilities of the Redwood City factory sites, and all have been favorably impressed with the facilities offered. According to a statement made by a well-known financier of San Francisco last week, the population of Redwood City will increase fourfold within the next three years if the projects now pending decide to locate here.

Nor will the growth be altogether from the outside, as the local plants, which even now maintain a very considerable pay roll, have found their business to be increasing so rapidly that with a very few exceptions all have made radical enlargements of their plants and increased the number of men employed. The increase made in the last two years has been the greatest ever made in this city, but according to to the superinendent of one of the local plants, it will pale into insignificance compared to the enlargements which will be made within the two years coming.

Not alone in manufacturing, either, has the increase been observed. Recently a local tire dealer remarked that he had purchased twice as many tires this year as in any year previous, and added that he would buy five times as many next year as he had this. The same is true in every line of merchandising in Redwood City.

The animated condition of business in Redwood City is due in a large measure to the natural growth, partly to the fact that such enterprises as the cement works and the Dumbarton bridge are now under way here, but to even a larger extent by the advertising given to the town by the enterprises above mentioned. Redwood City has become known over the length and breadth of the nation from the publicity given these enterprises and the Hetch Hetchy project, and is now reaping the reward of this advertising.

WOODSIDE ITEMS FOR PAST WEEK

Mrs. A. H. Audiffred gave a brige party on last Saturday evening. Those invited were Mr. and Mrs. Ludwig von Savoye, Mr. and Mrs. George McArthur, and Mr. and Mrs. Fred Mighall.

Ross, Jr., of Woodside drove to the city on Wednesday to attend a birthday party given to their grandmother in the parlors of St. Johns church. This venerable lady, Mrs. Albertina Eden, is ninety-five years of age, but is possessed of such mental and physical energy as to belie the generally accepted theory that age must bring decrepitude.

Mrs. Freida Wolfe who has been ailing for some time has been taken to the hospital. She has the best wishes of Woodside for her early recovery.

The pupils of the Woodside school held appropriate exercises on Wednesday afternoon in which they paid tribute to the Pilgrims and to the early pioneers in this western part of the continent.

OFFICER RUN DOWN BY PALO ALTO MAN

While edeavoring to stop a car driven by a Palo Alto man named H. C. Benedict, Eddie McAuliffe, police officer of Redwood City, was run down and painfully, but not seriously injured. McAuliffe was in the police car and accompanied by Homer Porter, when he noticed a car without any lights. McAuliffe took after the car and crowded it into the curb and got out to arrest the driver. The other car, however, backed up and started away again, but McAuliffe succeeded in catching up with it again. This time he got out and went in front of the car to take the number, but the driver had the car in gear and started up suddenly knocking the officer down and speeding away.

McAuliffe was taken to the hospital where it was found that his his injuries were not of a serious nature and he was able to return home after a few days.

In the meantime the car was located by means of the number which McAuliffe had succeeded in obtaining and Benedict was placed under arrest, charged with reckless driving, assault to commit murder, and with leaving a victim on the highway.

Benedict remained in jail for several hours but was finally bailed out by his father, a Palo Alto business man, and by a Stanford professor. Benedict is a part time student at the university.

When he arrived in Palo Alto, Benedict is supposed to have become frightened at what he had done and after some time told the police of that city that he had run over a hold-up man on he highway. It was the story connected with his number that led to his arrest.

THANKSGIVING

For three hundred years and more the people of this country have followed the custom at this season of giving thanks to God for blessings that have come to them during the year. There never has been a time since the origination of the custom when there was more to be thankful for than there has been this year. As a people we have been free from entangling alliances. Prosperity has been with us. There have been no national calamities. Sickness and plague have passed us by. Wages have been good and work has been plenty. So we have good reason for being thankful.

When we contrast our condition with that of our neighbors across either the Pacific or the Atlantic Ocean we can see that God has been good to us. In Europe, the war cloud hovers and economically there is the greatest unrest. If it were not for our bounty, whole nations might have starved. In Asia great calamities have suddenly wiped out great sections of country and have taken the toll of thousands of lives and here again the succor given by America has helped in the relief of the distressed. Similar conditions can be found elsewhere.

So we can honestly thank God for all that He has done for us, and it should be our honest prayer that He may so direct our lives that we may be worthy of all of these blessings.

UNIFORMS FOR OUR POLICEMEN

We believe that Redwood City has a most efficient police system. We further believe that it is worth all and perhaps more than it costs the city for its maintenance. Any man who wanders about town all night long to protect our property is deserving of a generous salary. Most of us wouldn't do the job at any price.

Last week one of our officers was seriously injured by being run over when he stopped a youth who was driving without lights on his machine. The young man claimed that he thought it was a hold-up. It is not our purpose to comment on the case in any way. We feel though that the city should provide uniforms for its police officers so that no one could ever offer such an explanation again.

Towns smaller than Redwood City have a uniformed police system. Strangers like to ask directions of a man in uniform. They expect help and protection from such an individual. We know that the lack of a uniform does not in any way interfere with the efficiency of the system but we believe that such a plan would help to advertise Redwood City as a good progressive town.

SAN MATEO COUNTY

This week a gentleman visited our office. He had lately returned from a foreign trip. During the week he had visited friends in San Mateo county who had taken him about to see the beauty spots which abound here so numerously. In his conversation he said that no where in his travels had he seen anything to compare with the country about La Honda. The trip along the ocean from San Gregorio to Colma equaled anything in Europe and the journey from Belmont to Half-moon Bay across the Spring Valley lakes gave finer vistas than any to be seen in the English, Irish or Swiss Lake countries. As we had never visited any of these sections we could only take his word as true. We know, however, that there is nothing finer in California than our own valleys and coasts. We known that no where is there a finer climate than we have right here. We know that our schools are unsurpassed. We have all kinds of educational advantages right at our very door step. We are next door neighbor to the finest city in the country.

We in San Mateo county should realize what we have and let our friends know about it.

A BUSINESS-LIKE ADMINISTRATION

It was called to our attention this week that the problems facing the Town of Atherton are identical with those of the Town of Redwood City, and this to a great extent is so. We have heard no end of propaganda concerning the class problem in Atherton, and the "rich man" and the "poor man," but from our own observation we are willing to say that the board of trustees of the newly formed town are going about in a business-like manner to establish a municipal government that will be equitable and fair to all concerned, whatever their station in life. The board is endeavoring to maintain the town as a beautiful residence district and to get rid of all that will tend to lower values or detract from the desirability of the place. It may be that this will work a hardship on a few, but it is an inevitable law of popular government that the few must bow to the will of the many. The ordinances so far drafted by the board have been called drastic. They are drastic, but they were drafted to meet a situation requiring drastic action. When Atherton becomes firmly established as a town many laws now receiving severe criticism will pass unnoticed. It is now in the formative period of municipal growth and the citizens should have patience and rest assured that the board have the interests of each citizen in mind, but must act in the interest of the majority.

WATER AND WISDOM

Our contemporary states that the wisdom of Solomon would be needed to settle the water situation in Atherton. With all defference to that great diplomat, we offer that Moses' rod would be found more useful.

RUNNYMEDE NOTES

The following program has been arranged for Saturday night of this week by the committee for this month appointed by the Runnymede 49er Club. The program starts with the play, "His Model Wife," all local talent and under the direction of Miss Geneive Hartwell. VANDALS MUTILATE ATHERTON BILL BOARDS

When the Town of Atherton was incorporated three bill boards were erected at different points in the town for the purpose of posting the new ordinances and other legal notices. On several occasions it has been found that the notices were torn from the boards and the bill boards have sometimes been pulled down and thrown on the ground. The matter is being investigated, and the marshall is on the outlook for the vandals who is thus cowardly seeking to express the contempt for the town government that he has not the courage to show openly.

Cleaning Without Odor by the F. Thomas Process

Our many years of experience has taught us that it is impossible to do perfect cleaning with cheap, inferior methods. That is why we found it necessary to invest nearly $500,000 in the equipment of a plant and the establishment of an expert organization to do the quality of work demanded by our customers.

With the "F. Thomas Process" we not only remove every particle of dust but we return your garments without that usual disagreeable smell of gasoline. Every drop of gasoline we use in cleaning is redistilled and very highly refined.

Raw gasoline—the kind that you buy for your automobile—is full of heavy oils and unfit for cleaning fabrics. It is little better than ordinary distillate and leaves a sickening "gasoline" smell in your clothes

Your Tax Collector

ABOUT one-tenth of your power rate—ten cents on every dollar that you pay to a power company in this state—represents taxes paid by that company to the state and federal governments. The state gets seven and a half cents and the federal government gets about two and a half cents of that ten.

Virtually all the tax revenue of the state government is collected from corporations. But the corporations must and do get it back from their customers in the charge for service as an expense of doing business.

Who, then, really pays the state taxes?

The corporations do not support the state government. They are merely tax collectors for the state. Instead of paying your taxes directly to the state you pay them to corporations in rates.

Why, then, are the corporations, since they do not really pay the state taxes, so unwilling to accept increases of the state tax rate?

Because tax collecting is an unpopular job and corporations, striving to please the public, are reluctant to incur the unmerited blame for higher rates caused by the increase of taxes.

VOTE $15,000 FOR PENINSULA SURVEY

An expenditure of $15,00 from a special fund for the purpose of paying for the survey work and preparing plans and estimates for the construction of the proposed bay shore highway down the peninsula was authorized by the State Highway Commission at a meeting held in Sacramento Monday. The unit to be surveyed is from the northern boundary of San Mateo county of Redwood City, a distance of twenty miles.

NEWS OF MENLO PARK

Thomas O'Day, capitalist and promoter, identified prominently with contracting, real estate and promotion deals in and around San Francisco for many years, passed away at his home on Ashbury street, San Francisco, last Sunday at the age of 42 years. During the war he conducted the Fremont Theatre here, selling out at a big profit about three months before the ending of the war. He had big houses and cleaned a small fortune in the venture. The Hippodrome Thtatre was built by him. O'Day leaves a big estate.

Harry M. Holbrook, the capitalist and at one time head of the hardware firm of Holbrook, Merrill and Stetson Co., San Francisco, passed away at his home last Friday after a long and lingering illness. The deceased was the only son of Charles M. Holbrook, aged 57 years and a native of San Francisco. Several years ago he suffered a paralytic sortke from which he never recovered. Mr. Holbrook spent his boyhood in Menlo Park at the home of his father and was well known and liked here. The death of Mr. Holbrook is a severe shock to his aged father, who loved him dearly. Mr. Holbrook, Sr., is in his ninety-third year and it is doubtful if he will recover from the blow. The remains were interred on Monday. Beside his father the deceased is survived by his two sisters, Mrs. Samuel Knight, Mrs. Silas H. Palmer and a daughter, Harriet Holbrook.

Saturday, December 8, the food sale and the disposal of fancy articles will take place in the parish hall of Trinity church. This will be a rare opportunity for housewives to secure home-made pies and cakes for their Sunday dinner and to buy their Christmas presents. A bevy of pretty girls will be present to attend to the wants of the many patrons of the affair.

Menlo Park may justly boast of the best climate in the world, not excepting the celebrated Canary Islands. There were thirty sunshiny days during the month of November and only a slight suggestion of frost for a few mornings. People are still eating their strawberries and ice cream on their lawns. The days of November were as pleasant as the ones of last September. Flowers are yet in bloom and the last rose of summer is lingering with us still, just as beautiful as it was last August, the birds are singing their sweetest songs in the tree tops. All nature is gladdened. Menlo Park is truly a Garden of Eden. Moral Buy a home in this community.

Housewives beware. The turkey thief is in our midst. Keep your bird under a lock and key if you want it for Christmas for this unspeakable, contemptible nocturnal miscreant will get it. During the week many roosts were robbed of their Thanksgiving beauties.

Sig Stern, the well-known capitalist, departed for New York and Washington last Sunday to be gone for several weeks.

The most noted choral organization in the world—the Sistine Chapel Choir from the Vatican—will appear in the Civic auditorium, San Francisco on December 7 in three concerts. Many from Menlo Park will hear the famous chorus. The Vatican songsters, led by their conductor Monsignor Antonia Rella, were welcomed by President Coolidge in Washington last month and rendered a program for him. The choir, which takes its name form the beautiful Sistine Chapel in Rome, is composed of fifty-two artists—fourteen tenors, four male sopranos, four male altos, ten bassos and twenty boy singers.

Paraiso Park, the home of the 319 Engineers during the war, is becoming dotted with pretty homes. The latest to build in the choice spot is Mrs. Mary Williams who is erecting a ten thousand dollar home. When completed it will be the prettiest in the tract.

Menlo Park, Atherton and Palo Alto families have joined in forming a junior dancing club which will meet on the second Saturdays of the month. It is called the Junior Fortnightlies. The patronesses are: Mesdames A. G. C. Hahn, Bailey Willis, Selah Chamberlain, Harry Hoehl, Eli H. Weil, Cecil Marrack, Charles Woods, Covington Pringle.

William Curtis and W. E. Groh's big aggregation of shows and carnival feautres are in Menlo Park and are located in the large lot on the corner of the highway and Oak Grove avenue. They are doing a thriving business, their shows being clean and wholesome and entertaining. The numerous concessions are conducting in a pleasing manner. Mr. Curtis is wlel known to the people of Menlo Park, he having had a show here during the Camp Fremont period. Mr. Curtis has been managing shows up and down the peninsula for the pas t twenty years and ha a reputation for square dealing with his patrons. His name is synonimous with fair dealing and honesty.

The Alhambras were greeted by a large crowd in the Hall of the Nativity last Tuesday evening. Standing room was at a premium, every available space was taken. The performance was the best ever seen in Menlo Park. James Britt, ex-light weight champion of the world who since his retirement from the ring, has become a monologist of national fame, brought down the house with his drollery and fun-provoking recitations. All the other numbers on the interesting program were equally as good. The Alhambras will be asked to come back again.

John Welsh, a pioneer of Menlo Park, is quite ill at his home. His advancing years are making rapid inroads upon his former robust constitution. Mr. Welsh is one of the best-known and respected pioneers of Menlo Park.

Mr. Kane, the local enterprising realty broker, has signed an agreement to erect a $25,000 thetre building for a motion picture man of San Francisco on his property on the highway, near the French laundry. Plans have been prepared and ready for acceptance. The building will be two story in height with offices above and two stores in front below, and a modern theatre in the rear with an entrance from the front of the structure between the two stores. The motion picture man has a deposit up on the building and will complete the purchase when it is finished.

Several business houses have opened in Menlo Park lately, but very few know what is being sold by the proprietors for the reason that they do no advertise. The public should be made aware of these enterprises through a display advertisement in the Times-Gazette, the best advertising medium on the peninsula. Five hundred copies of the paper reach town every Saturday and it is safe to say that at least six persons read every copy so that 3000 citizens scan its columns and its advertisements. It may therefore be seen what results an "ad" would bring to any business man in Menlo Park. Do you get the point Mr. Businessman?

"Early to bed and early to rise,
Makes a man healthy and wise,
But it will not amount to a d--n,
If he doesn't advertise."

The Companions of the Forest are making active arrangements for their card party on December 18 in Duff and Doyle hall. The society has secured a large supply of turkeys for the many prizes that will be offered on that occasion. This will be a rare opportunity for housewives to secure their Christmas turkey at a nominal cost.

Menlo Theatre will reopen this evening with a splendid bill by the new proprietors, Crawford and Son of Mayfield. The playhouse has been renovated and remodeled. For the present shows will be given every Saturday and Sunday evenings. This evening, "Lost and Found" will be the feautre picture with a good comic and news film. Tomorrow evening "The World Champion" will be presented with a good cimic and news picture.

THE GIST OF THINGS

If you have unlimited sense you have unlimited wealth—but you haven't.

A lot of writers don't care who makes the laws of the world so long as they can butcher its songs.

Not brains, but the use of them, counts. A pig has brains but they are chiefly valuable in sandwiches.

Of course we know everybody has a right to believe as he pleases, but isn't it funny that practically everybody's beliefs are so foolish?

A lot of people just now are buying next year's car with this year's wishes.

Palo Alto Asks All to Be Guests

This city is to be visited on December 6 by a motor caravan carrying an invitation to "Be Its Guest" at the Merchants' Christmas Party the following night in Palo Alto. This caravan driven by Palo Alto business men will visit the following towns and districts: Redwood City, Revenswood, Runnymede, Menlo Park, Mayfield, Mountain View and Los Altos. It will be equipped with weird noise making device and carry banners and literature bearing its invitation.

O the same night of December 6, radio fans throughout the state will receive a general invitation to Palo Alto's party through the ether. Arrangements have been made to broadcast this message following a musical program furnished by the Stanford Glee Club from K. L. X. at Oakland.

Early next week the giant Christmas trees will be put into place and strung with bright lights to announce to passersby on the highway the gala event which takes place in Palo Alto on December 7.

Merchants in that city are busy preparing stunts and entertainments for the thousands who are expected to "Be Their Guests." An air of secrecy prevails, and individual demonstrations bid to eclipse those of last year.

Two dance orchestras have been engaged to parade the business district playing popular numbers. A large brass band will march up and down University avenue. Then individual concerts and radio and phonograph programs have been announced.

The monster street dance on Emerson street is expected to prove very popular. A similar dance has been scheduled for High street, only here strains will be furnished by radio.
